Rod Wave

Give me your
Love
I don't want nobody else with it
No, I don't want nobody else with it
Give me your
Touch
Don't you let nobody else get it
No one should let nobody else get it
Give me your
Lo-o-ove
And don't you let nobody else get it
No I don't want nobody else with it

I'm a young country nigga I come straight up out the bottom
A young wavy nigga I was raised around piranhas
Had to shake my last bitch, that bitch was bout drama
Now I'm chasing cabbage, at sixth fifth spending commas
I been all around the world, been in all kind of clubs
Met all kind of girls, I ain't never fell in love
The new one got me twirled, she done hit me with a bug
After I chase that cake, we go on dates just because
Where you going, where you been, it was nice to meet you baby
Don't know what it is, feeling like I need you lately
All my role models studs, but when they were in prison
I was raised round women
I know how to treat a lady
You can ask all of my dogs, I be on that thug shit
This ain't like me at all I don't be on that love shit
This ain't like me at all I be trippy fuck bih
To be honest can't be flaw, girl you got me love sick
Now this that fuck them other bitches, I done sealed a deal for
This that good ones hard to find, real recognize real flow
This that rub your feet until you go to sleep, my granny flow
This that hit the streets about a week, then come back early fl
ow

Give me your
Touch
And don't you let nobody else get it
Girl don't you let nobody else get it
Give me your
Lo-o-ove
And don't you let nobody else get it
Girl I can't let nobody else with it
