

Tango

Rodrigo Amarante

Catch me if you can again
Hold me if I fall, you'll know when
Don't look down your feet, it's in your hands
When it's time to turn, I leap

You come lightly, you take my weight
Softly you break the ice
Hardly I know the way
You make me dance tonight

Find me on a bend, again
Tuck me if I flip, I know you can
In your eyes I see, it's in my head (your head)
If the time has come, you leap

And we become
And we become
And we become one

And we become
And we become
And we become one

We become
And we become
And we become one
And we become one

We become
And we become one
We become one

Won't you let me be your baby?
Won't you let me try?
Won't you let me be your baby?
Will you let me try?

Won't you let me be
Won't you let me be
Won't you let me be your baby?
Won't you let me be
Won't you let me be
Won't you let me be your baby?
