

## Better Off

Roe Kapara

I'm better off getting high than being naked with you  
I know you're thinking of him when we're alone in your room  
I'm just your distraction that you needed all the time  
You just needed someone you could use  
If you need satisfaction, and you call me up tonight  
I'd rather die alone up on the moon

I got your name stuck to my tongue  
Only call me when you're drunk  
And she hates my jealous mind  
Let's run this once more  
Jumping out back, you locked me outside  
You're wearing that face that you made last night  
You lied, but I won't  
She turns me into someone I don't know

Now I know  
You're the leaf stuck to my bones

'Cause I'm better off getting high than being naked with you  
I know you're thinking of him when we're alone in your room  
I'm just your distraction that you needed all the time  
You just needed someone you could use  
If you need satisfaction, and you call me up tonight  
I'd rather die alone up on the moon

'Cause I'm better off getting high than being naked with you  
  
I'm so tired and she's so bored  
She ties me up, I let her ignore me  
She dyes her hair, it stains my floor  
I cleaned it up, she's gone in the morning

I'm better off getting high than being naked with you  
I know you're thinking of him when we're alone in your room

'Cause I'm better off getting high than being someone you used  
If I ran headfirst into traffic, would you tell me to move?
