

You Are Yourself

Roger Daltrey

Do you wish you had the power
To be just who you wish to be.
Or you could be a most important person,
Don't you agree

Or can't you see we're just like strangers
I don't know you, you don't know me.
Oh let's say maybe, I'm a movie star
And you're the queen.

You are yourself
Like everybody else.
And when you realize you're just the same,
Then you'll be free.

So do you wish to have the answer
To what I'm trying to say.
Just close your eyes, and maybe you can see yourself,
And you're OK

The world is full of lonely people
And lonely people often dream.
Day by day, they dream of being someone else
Like you and me

You are yourself
Like everybody else
And when you realize you're just the same
Then you'll be free.

You are yourself
Like everybody else
And when you realize you're just the same
Then you'll be free.

You are yourself
You are yourself
You are yourself
You are yourself
You are yourself
You
You are yourself
