

London

Roger Hodgson

I wish I was in London
walkin' in the rain
I wish I was in London
ooh I really miss the rain
Oh, just take me home again

I wish I was in England
I really miss the Queen
I wish I was in England
ooh I really miss the Queen
Oh, just take me home again

What happened to the Empire?
There's nothing in the Bank
They gave away the Empire
without a word of thanks
Oh just blame it on the Yanks

So give me rule Britannia
Britannia rules the waves
I live in California
but it's really not the same
Oh, so take me home again

Oh, please take me home again
Oh, so take me home again...
