

Save Me Now

Roger Sanchez

Pull me from the flames I can't take the lies
Save me now
Save me now
Save me now
I'm holding my breath tryna stay in line
Save me now
Save me now
Save me now

Saw the light now I'm trying to get out of your world
Took me in took me down crawling out of the hurt
Now I know that I won't
Play your game just to show
You made me lose a piece of mind
If you ask I'll say no
Left you here all alone
Sitting on your throne of lies

Pull me from the flames I can't take the lies
Save me now
Save me now
Save me now
I'm holding my breath tryna stay in line
Save me now
Save me now
Save me now

We were fighting fire loving blind
Hoping that we'd make it out alive
Pull me from the flames I can't take the lies
Save me now
Save me now
Save me now

If you ask I'll say no
Left you here all alone
Sitting on your throne of lies

Pull me from the flames I can't take the lies
Save me now
Save me now
Save me now
I'm holding my breath tryna stay in line
Save me now
Save me now
Save me now

We were fighting fire loving blind
Hoping that we'd make it out alive
Pull me from the flames I can't take the lies
Save me now
Save me now
Save me now
