

Outsider

Roger Taylor

In times of worry
When life is tough
The world's getting to you
And you've had enough

Time to stand up tall
And look them in the eye
Sometimes my friends
It's do or die

Feel like I'm always on the outside looking-in
Kick the door wide open
Time you must decide
Walk right in and soak 'em
My friend
It's time to win

There's a killer that's twice your size
Always bugging you in class
Walking home from school
He's hiding in the glass

Or he's waiting with his friends
With an ill-intentioned grin
You better make your mind-up
It's time to win

Feel like I'm always on the outside looking-in
Don't stop to think it over
In time, you must decide
The devil is on your shoulder
My friend, it's time to win

Feels like I'm always on the outside looking-in
Feel like I'm always on the outside looking-in
Feels like I'm always on the outside looking-in
Maybe this time
You'll win
