

# Always Remember

Roger Whittaker

Ohh, ohh, always remember you're never alone  
Ohh, ohh, always remember you're never alone  
Always remember you're never alone

So the life in you is shattered  
Like the mirror on your wall  
And familiar things are scattered  
Beyond anyone's recall  
And the passions that once drove you  
Turned to anger's pain  
We have all been there

Ohh, ohh, always remember you're never alone  
Ohh, ohh, always remember you're never alone  
Always remember you're never alone

So you find yourself in darkness  
When all you knew was light  
And your fear turns to anger  
But you don't know who to fight  
Sit quiet in the darkness  
Hear the message of your heart  
That's where we all start

Ohh, ohh, always remember you're never alone  
Ohh, ohh, always remember you're never alone  
Always remember you're never alone

Ohh, ohh, always remember you're never alone  
Ohh, ohh, always remember you're never alone  
Ohh, ohh
