

# I'm Back

Roger Whittaker

I crossed over every ocean and I've sailed the seven seas  
And I've had the great good fortune to journey where I pleased  
I've flown my plane to places where others seldom fly  
And I've sung my songs and made my friends and then said my goodbyes

I can talk about the Eskimos in the arctic cold  
And I've seen the glory that was Rome seen history unfold  
I've seen the mighty Amazon and tigers in Bengal  
I've flown the river Rhine where the lories fall

I'm back, I'm back, I'm back where I belong  
I'm back with all the folks I knew, where the call of home is strong  
I can see the world has changed you, I can see it in your smile  
But you're really just the same my friend, so I'd like to stay a while

Now I've seen the many wonders in the good old USA  
And I've sung my songs in Nashville and made movies in L.A  
I've seen the rocky mountains and Boston in the fall  
And I met a million people I must say I love them all

I'm back, I'm back, I'm back where I belong  
I'm back with all the folks I knew, where the call of home is strong  
I can see the world has changed you, I can see it in your smile  
But you're really just the same my friend, so I'd like to stay a while

I'm back, I'm back, I'm back where I belong  
I'm back with all the folks I knew, where the call of home is strong  
I can see the world has changed you, I can see it in your smile  
But you're really just the same my friend, so I'd like to stay a while
