

# Simply Friends

Roger Whittaker

Over and over again you keep asking for prove  
And over and over again I keep telling the truth  
If you stay a moment to close please be kind  
There's an answer that I know looked in my mind

We're simply friends what more can we do  
Simply friends just me and just you  
Simply friends that dream a dream of love forever

Simply friends that's all what we are  
Simply friends who love from afar  
Simply friends that spend their lonely times together - together

Over and over again we get trapped in the past  
And over and over again you know nothing can last  
Life goes on and what done is done - it can't be changed  
Take my hand and I lead you the way

We're simply friends what more can we do  
Simply friends just me and just you  
Simply friends that dream a dream of love forever

Simply friends that's all what we are  
Simply friends who love from afar  
Simply friends that spend their lonely times together - together

Together - oh, together...  
Together - oh, together...  
Together...
