

# Private Lover

Roger

Once upon a time  
In the city where I lived  
I had a private, a private love  
At a designated time  
And a predetermined place  
I'd meet my private lover  
I had an awful lot to say  
And so little time to play  
With my private lover

People let me tell you  
Why we'd meet this way  
My private lover  
Had another love, too  
Private, not to be disturbed  
Private, my private love  
Private, not to be disturbed  
Private, my private love

On a stolen afternoon  
In a suburban hotel  
I'd meet my private, my private love  
Those intimate moments  
That few will never tell  
Private lover  
Ooh we shared a glass of wine  
And the secrets on our mind  
Private lover

People let me tell you  
Why we'd meet this way

My private lover  
Had another love, too  
Private, not to be disturbed  
Private, my private love  
Private, not to be disturbed  
Private, my private love

Private, not to be disturbed  
Private, my private love

There's no time to waste  
As we lock in our embrace  
Private, my private love  
She loves me, too  
I can see it in her face  
Private lover  
My joy turns to grief  
You know she's got to leave  
Private lover

People let me tell you  
Why we'd meet this way  
My private lover  
Had another love, too  
Private, not to be disturbed

Private, my private love  
Private, not to be disturbed  
Private, my private love

Private, not to be disturbed  
Private, my private love
