Overload

Rogue Traders

You've got me switched to overload again. (Overload
again)
Can't stop electricity – it'll never end. (Never end)
You've got me switched to overload again. (Overload
again)
Keep trying to process all the love you send.

(You've got me switched to overload)

Can't stop electricity,
More than just my body.
Wired to my circuitry,
I'm pure electricity.

I can see us become one – connected and affected by
your – pull so strong.
It's the shape of things to come – emerging surging
screaming fusing – into one.
