

## Curious Me

Rogue Wave

I know that I'm not your first  
You wake me when up  
When I'm acting at my worst  
You make me try  
For who I want to be  
And you're all around me

Laying low  
With your friends  
You're first in line  
In a cycle that never ends  
I could show you  
How it's supposed to be  
If you go around me

Well, the August sky  
Looks grey and blonde  
You leave a message  
So you know where I'm calling from  
Your pillow's soft  
It made me feel so sweet  
When you're all around me

I need you all around me  
I need you all around me  
I need you all around me

I need you all around me  
I need you all around me  
I need you all around me
