

Endless Supply

Rogue Wave

Too indie for pop
Too pop for the indie
Well, something about this isn't right
We put up with apathy of management
Well something about you is a lie
Will I kill myself every single night?

You know I got an endless supply
You know I got an endless supply

We got stopped
For slippery accountancies
Were you ever wearing me right?
Intend to warn
I bet you never answered to 'em
Do you tuck yourself in at night?
I tried to quit this curse but I can't abide

You know I got an endless supply
You know I got an endless supply

Checking on my pointless song
Just for fun when we were young
Looking at my newborn son
It's getting hard to get real gone

But you will get your turn
You will get your turn

You know I got an endless supply
You know I got an endless supply

I guess you're just not wearing me right

You know I got an endless supply
You know I got an endless supply
