

# I'll Never Leave You

Rogue Wave

Well these bottles and stones  
We collected from our shows  
We could line them one by one  
Cause your pain is my pain  
We'll go out of this just the same  
We're better when our paths combine  
I nearly drove past the sign  
I'll never leave you  
I'll never be like that  
I'll be the one I was in life  
I'll never leave you  
I'll never be like that  
I'll be the one I was in life  
Attached, she's born  
Even when I'm tired and worn  
Her father's window's first daylight  
Well the past is just dead  
A thousand monkeys in my bed  
The only thing I have is time  
To bring back this bloodline of mine  
I'll never leave you  
I'll never be like that  
I'll be the one I was in life  
I'll never leave you  
I'll never be like that  
I'll be the one I was in life  
I'll never leave you  
I'll never be like that  
I'll be the one I was in life  
I'll never leave you  
I'll never be like that  
I'll be the one I was in life  
I was in life, yeah
