

# Memento Mori

Rogue Wave

There's a block  
In the way  
That you move in time  
Neon feathers  
In her headdress  
To cover yourself in vine  
There's a time  
To change  
Or let it die

Cause I've failed you  
Like you've failed me  
I've failed you  
Like you've failed me

I couldn't live like I'm always alone  
Will you see how far I get  
I could call you on a rotary phone  
But it's never too for regret  
So jump on a switchblade  
On industrial clone  
Cause I was never a teacher's pet

Cause I've failed you  
Like you've failed me  
I've failed you  
Like you've failed me

You're left waiting  
At the side of the road  
I was looking for a single friend  
I'm already with you  
I'm already gone  
You can see me without clicking send  
I've already asked you for the millionth time  
So I'm never gonna ask again

Cause I've failed you  
Like you've failed me  
Failed me
