

## Seasick On Land

Rogue Wave

The final phase  
A walk on hayes  
A punchbowl argument  
The swallowed flames  
The drunken dames  
That looked like helium

I need this now  
Just like you told me not to  
I breed this now  
Just get me off of the boat for a little while

The war it came  
With fifty men  
That stretched out over their graves  
Declared a war  
And killed some more  
And killed some more again

I need this now  
Just like you told me not to  
I breed this now  
Just get you off of my back for a little while
