

Orally Fixated

Róisín Murphy

Don't take my lollipop
You don't know how to line 'em up
My baby's never satisfied
He always wants what I've got
He don't know when it's time to stop
My baby's never been deprived

Out of house and home
Where I shoulda known
I shoulda seen it in his eyes
Why can't you take a time out
Why don't you ever shut your mouth
I just can't stand to see you cry

When the last time we spoke
And now you want more
You are a very hungry guy

Baby, you're orally fixated
You've got to give your mouth a rest
So greedy, i wish u coulda waited
But you just have love to stuff your face
Baby, you're orally fixated
You've got to give your mouth a rest
So greedy, i wish u coulda waited
But you just have love to stuff your face

What you see is what you get
Cause I ain't got nothin yet
At least not for a greedy little boy
It's what you came to expect
And I need time to reflect
Ain't you heard that sometimes less is more
My cupboard is bare, you're already there
And i see through your dirty little ploy (boy?)

I'm not gonna fill u up
Never never ever gonna fill your cup
You can't have your cake and eat it too
You never feel full and frankly it's dull
Because it's always about you

Baby, you're orally fixated
You've got to give your mouth a rest
So greedy, i wish u coulda waited
But you just have love to stuff your face
Baby, you're orally fixated
You've got to give your mouth a rest
So greedy, i wish u coulda waited
But you just have love to stuff your face
