

Two Ways

Róisín Murphy

I'm not the type to make a song and dance, out of it
I'm not your girl and I don't have the right
I'm not going to fly into another rage, not tonight
I don't wanna kill you with the fright
I don't wanna kill you with it
I know you could deal with it
Put a little feeling in it
Dive down in it
I'm gon' let you drown in it

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level, oh

Oh, God
Just ways to make you smile, in my mind
True victims of our time, take me back
Hard mountains left to climb
But I'm going out like that
Two ways to pass the time, in my life

I'm not gon' fly into another rage, not tonight
I don't wanna kill you with the fright
I don't wanna kill you with it
I know you could deal with it
Put a little feeling in it
Dive down in it
I'm gon' let you drown in it

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level

I know you could deal with it
Put a little feeling in it
Dive down in it
I'm gon' let you drown in it

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level

Oh, God
Just ways to make you smile, in my mind
True victims of our time, take me back
Hard mountains left to climb
But I'm going out like that
Two ways to pass the time, in my life

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level

I know you could deal with it
Put a little feeling in it
Dive down in it
I'm gon' let you drown in it

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take to another level
Oh, God

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level

I know you could deal with it
Put a little feeling in it
Dive down in it
I'm gon' let you drown in it

Every secret's safe with me
Baby, this'll stay between
You and me for forever
Take it to another level
Oh, God
