

Please Don't Kill My Baby

Roky Erickson

The Man keeps on knocking
The knocking never stops
The woman starts screaming
The sound that makes you drop your teeth
Please don't kill my baby
Please don't kill my baby
Kill my baby
Hey, don't kill my baby

The Man ketps on knocking
Hey, give me a ride
And he killed a baby in the wagon
Please don't kill my baby
Please don't lull my baby
Kill my baby, kill my baby

The Man keeps on knocking
It`s cold outside in the morning
Nothing but a bloody ride
Somebody had picked up the wagon
And taken it away
Please don't kill my baby
Kill my baby
Please don't kill my baby
