And you know me, I'm confident with the flow
Hold tight all the E3 soldiers, you know
We do this for fun

Eskiboy and I am messy, boy
And I will come into your house and leave it messy, boy

Eskiboy and I am messy, boy
And I will come into your house and leave it messy, boy

Eskiboy and I am messy, boy
And I will come into your house and leave it messy, boy

Wait for it, I'm made for it, I've got it cause I paid for it
Think if I'm winning the game, a player must've played for it
If you don't wanna lose your life, you've gotta spray for it
I'm down in the gutter, you cannot take me away from it
I keep the level high, they try degrading it
If I hear them boys doing a show, I'll be invading it
They might be under the impression, let me hit em with regressi
on
Run up on the show, bring the spirits in on the session
What's this free talk, loose talk? You need to learn a lesson
Keep your mouth shut, trap shut, at your own discretion
I can beat you, teach you, meet you, heat you
No, I'm not your friend, I've got the 38 to greet you
Time is running out, the clothing line is coming out
My [?] is going in, the robosphynx is coming out
And after everything is done, I'm still alive, I'm speaking out
Bring the central heating out, God's defense if they're about
'Skimo's a heavyweight and he holds the heavy weight
I spread Os around the state, watch cats disintegrate
Make papes around the way, my Friday's always in the way
I ride my bike on sunny days, these are empty Tommy days
I'm like "where's my next pie? ", I'm out to find my next pie
What's that? A west pie? I'm always up for west pies
But if we go up north, that's where you find the best pies
Best of the best pies, the Falcon Crest pies
