

Cannot Close My Eyes

Romain Virgo

Close by the window
Waiting for you, for you to come back home
Back full of meters
That's how it feels, how it feels
When I sleep alone

Can't help but wonder how you look tonight
In those fashion lights

And I cannot close my eyes
I think of you but it's never enough, never enough
I cannot close my eyes
I would die in my dreams if I fall
Asleep again

Hold firm to my pillow
Hoping that you, that you're safe where you are
See colors, I know
How the other guys just lose their minds
Never satisfied
With just a show

Can't help but wonder how you look tonight
In the spotlight, ooh

And I cannot close my eyes
I think of you but it's never enough, never enough
I cannot close my eyes
I would die in my dreams if I fall
Asleep again

I'll soon be done
That's what you said to me
You ask if I don't
What are you trying to do to me
Are you trying to run
You must be doing this purposely
When both nights are done
Tell me what's left for me

I cannot close my eyes
I think of you but it's never enough, never enough
I cannot close my eyes
I would die in my dreams if I fall
Asleep again
