

Fired Up Inside

Romain Virgo

Yeah, eh, eh, eh
Whoo, ooh ooooh ooh ooh ooh ooh
Yeah, eh, eh, eh, eh

We waste too much time
When will we settle down
It's just make up, then break up
Every time I come around
We can't deny this feeling
When we know we need that healing
Every single touch
Oh girl, I'm wanting you so much

Girl, love it's fantarise
What will we do about it
And I'm crazy about you, there is no doubt about it
Fired up inside, baby don't you deny
'Cause we got to connect to feel it
And let me give it to you right
Ooh, work me out, baby hold me tight
Kisses on your neck, baby just the way you like
Touch me touch me touch me
Baby, you're my nurse tonight yes

Oooooe yeah yeah yeah, yeaah yes
Oooooe baby, yes

We waste too much time
When will we settle down
It's just make up, then break up
Every time I come around
We can't deny this feeling
When we know we need that healing
Every single touch
Oh girl, I'm wanting you so much, oh yes

This love is slipping and sliding
With all the feelings you hiding, yeah
Your resistance enticing, so baby give it up
Look what you make me do
Save a part of my loving, baby just for you
Know how many girls out there are ready interview
I'm really losing my patience
The truth is all I want it's you

Stop wasting time
We need to settle down
It's just make up, then break up
Every time I come around
We can't deny this feeling
When we know we need that healing
Every single touch
Oh girl, I'm wanting you so much, oh yes

No love in front our eyes, what will we do about it
And I'm crazy about you, there is no doubt about it
Fired up inside, baby don't you deny

We got to connect to feel it
And let me give it to you right
Ooh, work me up baby, squeeze me tight
Ooh, let me give you good love tonight
Yeah, it's alright

You waste too much time
When will we settle down
It's just make up, then break up
Every time I come around
We can't deny this feeling
When we know we need that healing
Every single touch
Oh girl, I'm wanting you so much

Oh yeah, oh yeah
Yeah, baby
Just free up yourself, yo man
Free up yourself
