

Heartbeat

Romain Virgo

You're a queen, you deserve full attention
Ooh, know what I mean
Can't hide it, can't fight it, oh no
Whoa-whoa, I'll drown if I don't have this love
Don't you know, that I breathe your air?

Before you came all I had with me was fame
You keep me sane, I feel no pain, I'm floating high
You're the moon, shining through my darkest nights
And in the streets I feel your heart beating with mine
I feel your heart beating with mine
I feel your heart beat with mine, oh
Nuh, nuh, nuh

You're my team, you defend me and score all the points
Know what I mean, you're my pick, I like it, oh whoa
Whoa-whoa, I'm walking through walls for this love
Don't you know, I breathe your air?

Don't you know woman, that without that beat
My heart beats, my heart leaps beats, oh yes
No, nuh, nuh, nuh, ooh

You're a queen, you deserve full attention, oh
Know what I mean, can't hide it, can't fight it, oh no

Before you came all I had with me was fame
You keep me sane, I feel no pain, floating high
You're the moon, shining through my darkest nights
Don't you know I feel your heart beating with mine
I feel your heart beating with mine
I feel your heart beat with mine

Don't you know, I feel your heart beat beat beat, baby
If I can't look at you then I can't even move
I can't even walk, oh
No more lonely, no more lonely nights, baby
Don't wanna be all alone, eh, yeah
Don't wanna be in the room
I don't want to be in the bed, baby
No more crying, no more sighing, baby
'Cause your heartbeat is all I wanted
All I ever needed
I need you tonight
Right now I feel it, let me feel it, oh
Your heart beats with mine, ah
Ooh ooh ooh ooh, neh neh neh neh neh
Neh neh neh neh neh
Neh neh neh neh neh, oh
(I feel your heartbeat)
