

## Hold On

Romain Virgo

Hold on to what you've got  
Hold on to what you've got  
Just remember where we've started  
I know they all wanna see us parted  
So hold on to what you've got

Can't even remember when I felt like this  
Feeling so much joy in my heart oh what a bliss  
Shot me with your love girl your arrow never miss, miss  
Making these moments for us to reminisce  
It's the kind of love that I can't dismiss  
You are number one, you top my wish list, list

Mmh, and I know the [?] that comes from heartache  
But I don't wanna wait until it's too late  
Before we realize what we have is so great

So hold on to what you've got  
Hold on to what you've got  
Just remember where we've started  
I know they all wanna see us parted  
Hold on to what you've got

I've been watching you and this is what I observe  
You follow my lead and you listen to my words  
You're a real lady and it's not about your curves  
And I wanna keep it smiling every day  
You make me happy in every way  
You're my only girl, don't you hear what I say

So hold on to what you've got  
Hold on to what you've got  
Just remember where we've started  
I know they all wanna see us parted  
Hold on to what you've got

Hold on to what you've got  
Hold on to what you've got  
Just remember where we've started  
I know they all wanna see us parted  
Hold on to what you've got
