

# One Weekend

Roman Alexander

Swear I was only one weekend  
From moving on to closure  
Feeling like myself again  
Yeah, the hardest part was over  
Then you walk in  
Like you were never gone  
Here we go again  
Guess I wasn't that strong

I was three drinks away from not thinking about stuff we used to do  
I was two minutes into sweet talking and girl I hardly knew  
When you rolled in right at the wrong time  
Now your telling me you wanna come over tonight  
And outta the blue  
And I was one weekend from over you

You come in and press reset  
The pain gets re opened  
Until the next Friday night  
When my heart won't feel that broken

I was three drinks away from not thinking about stuff we used to do  
I was two minutes into sweet talking and girl I hardly knew  
When you rolled in right at the wrong time  
Now your telling me you wanna come over tonight  
And outta the blue  
And I was one weekend from over you

Then you walk in  
Like you were never gone  
I try to play it cool  
But baby, all along

I was three drinks away from not thinking about stuff we used to do  
I was two minutes into sweet talking and girl I hardly knew  
When you rolled in right at the wrong time  
Now your telling me you wanna come over tonight  
And outta the blue  
And I was one weekend from over you
