

Drum Control

Roman Lob

Tonight is all about rhythm
On your feet it is given
Let the drum take control
Just feel it so beautiful

Right now is your time
Let music be your guide
Why don't you take my hand
Can you feel it? Let you feel it

You're ready to feel the heat
It's down, have the world at your feet
You just have to listen to the beat
You just have to listen to the beat
You're ready to feel the heat
It's down, have the world at your feet
You just have to listen to the beat
You just have to listen to the beat

Step out, step on away
There is no reason to stay
You let the drum take control
It's a good day, just a good day

Right now say I do(?)
Join us, it's up to you
Can't you feel it?
It's true, ready your move, are you ready?

Driftin' away, I'm not alone
Endless beat comes on and on and on and on
Driftin' away, I'm not alone
Endless beat comes on and on and on and on

You're ready to feel the heat
It's down, have the world at your feet
You just have to listen to the beat
You just have to listen to the beat

Driftin' away, I'm not alone
Endless beat comes on and on and on and on
Driftin' away, I'm not alone
Endless beat comes on and on and on and on

Driftin' away, I'm not alone
Endless beat comes on and on and on and on
Driftin' away, I'm not alone
Endless beat comes on and on and on and on

You're ready to feel the heat
It's down, have the world at your feet
You just have to listen to the beat
You just have to listen to the beat
