

Wake Up

Roman Lob

Lookin' now at the window
The world is personalized
The fullscreen is flying in the maple sky
How long will it take?
I can't stop thinking of you
I can't stop thinking of you

All these pictures cross my mind
And I'm not in the mood
When I see you're lookin' by me
And I'm not in the mood you're lookin' by me

From the moment I wake up
'til I'm alone in my bed
I can't stop thinking about you
You're all in my head

From the moment I wake up
'til I'm alone in my bed
I can't stop thinking about you
You're all in my head

The cups on the table
There's nothing to say
We used to stay and talk
For almost every day

How long has it been
Since we drifted away
Since we drifted away
I guess we have to find the right way

All these pictures cross my mind
And I'm not in the mood
When I see you're lookin' by me
And I'm not in the mood you're lookin' by me

From the moment I wake up
'til I'm alone in my bed
I can't stop thinking about you
You're all in my head

From the moment I wake up
'til I'm alone in my bed
I can't stop thinking about you
You're all in my head

I can't stop thinkin' of
I can't stop thinkin' of you
I can't stop thinkin' of
I can't stop thinkin' of you
I can't stop thinkin' of
I can't stop thinkin' of you
I can't stop thinkin' of
I can't stop thinkin' of you
I can't stop thinkin' of
I can't stop thinkin' of you

From the moment I wake up
From the moment I wake up
From the moment I wake up
From the moment I wake up
You're all in my head

From the moment I wake up
'til I'm alone in my bed
I can't stop thinking about you
You're all in my head
You're all in my head
