

Who Only Europe Know

Rome

We can give and receive reason

Do we bar the gates with iron
To guard our holy flame
For your poor, your sick and tired
Your nutshell navies came
What do they know of Europe?
Only Europe know

And who will hail our brothers slayers?
Who will hail the invading men?
We may not speak of nation
We may not speak of soil and flags
What do they know of Europe?
Only Europe know

An this endless ocean of bodies
May well swallow it all
Do we miss our world so little?
Do we miss our sea so lone?
What do they know of Europe?
Only Europe know

Did we not justly hurl our flag over the slaver?
Did we not stand down and see the slave free?
What do they know of Europe?
Only Europe know

And the day they sold us out
Our hearts grew cold
Cause we were never asked
No, brother, we were told
What do they know of Europe?
Only Europe know

Will there be rivers of blood? (I don't know)
Will there be rivers of blood? (I hope no)
Will there be rivers of blood? (I don't know)
What do they know of Europe?
Only Europe know
Yeah, what do they know of Europe?
Only Europe know
What do they know of Europe?
Only Europe know
What do they know of Europe?
Only Europe know

We're building ghettos
Entrenching ghettos
Floating ghettos
Enforcing ghettos
We're building ghettos

[Outro]

I thought I could hear the divisions marching across Europe
And I could hear this drumming coming through the earth
I thought I could hear this drumming

Drumming coming through the earth
