

I hate waiting out the middle of the night  
The parking lot is slick like ba-blood  
That's not right  
People don't understand the way I talk exactly  
That's what I want  
You don't get it? Rain on you  
You don't get it? Rain on you

And the world can disappear  
And the world can disappear  
And the world can disappear  
And the world can disappear  
And the world can disappear

In my dream I have a secret  
The pictures I've drawn look on convinced  
While the dishwasher changes from wash to rinse  
I miss the horses I used to ride  
It's more fun when you wanna go out but you stay inside  
And the world disappears

His eyes were a beautiful grey  
He wanted to go away  
I said, "Stay, stay  
Boy, let's go away"

(Stay, stay, let's go away forever)  
I have a friend  
(Stay, stay, you know I'll stay forever)

I have a friend  
I have a friend  
I have a friend  
And it moves me

(Stay, stay, let's go away together)  
Don't go away  
(Stay, stay, you know I'll stay forever)  
Don't go away  
(Stay, stay, let's go away together)  
(Stay, stay, you know I'll stay forever)  
(Stay, stay, let's go away together)  
(Stay, stay, you know I'll stay forever)  
(Stay, stay, let's go away together)  
(Stay, stay, you know I'll stay forever)  
It moves me
