

Lifetime

Romy

You'll be right be... you'll be right be...

Oh, this is a high that I can't get from nobody else
You know I'll never let this feeling go to waste
No, oh no, no way
This must be a love from a higher place
Closing my eyes and I still know the taste
And the touch of your skin when the sun hits your face

And if you're ever lonely
If you can't find the way
If this world comes to an end
I wanna be there with you

Once in a lifetime (You'll be right beside me, I'll be right beside you oh oh)
(You'll be right beside me, I'll be right beside you oh oh)
Once in a lifetime (You'll be right beside me, I'll be right beside you oh oh)
(You'll be right beside me, I'll be right beside you oh oh)

Oh, this is a high that I can't get from nobody else
I will not forget the rhythm your heart makes
When it beats in your chest

And if you're ever lonely
If you can't find the way
If this world comes to an end
I wanna be there with you

Once in a lifetime (You'll be right beside me, I'll be right beside you oh)
(You'll be right beside me, I'll be right beside you oh)
Once in a lifetime (You'll be right beside me, I'll be right beside you oh)
(You'll be right beside me, I'll be right beside you oh)

Once in a lifetime something matters
I wanna tell you this matters to me
It's never the right time, so just let it happen
Oh, let it happen

Once in a lifetime (You'll be right beside me, I'll be right beside you oh)
(You'll be right beside me, I'll be right beside you oh)
Once in a lifetime (You'll be right beside me, I'll be right beside you oh)
(You'll be right beside me, I'll be right beside you oh)

Once in a lifetime (You'll be right beside me, I'll be right beside you oh)
(You'll be right beside me, I'll be right beside you oh)
Once in a lifetime (You'll be right beside me, I'll be right beside you oh)
(You'll be right beside me, I'll be right beside you oh)

Once in a lifetime
You'll be right beside me, let it happen
Once in a lifetime
Let it happen
