

Before We Ever Met

Ron Sexsmith

I dreamed of a smile
Long before it ever shone my way
I dreamed of it night and day like a sun that never sets
Over straight and crooked miles
Falling out of favor
Wondering where was love, it hadn't happened yet
Ooo, baby I missed you before we ever met
When things were looking down
My heart would always find the words to say
In times when I'd lose my way
In times when I'd forget
That love was all around
And fought for my attention every day
Things went on this way for a thousand years I guess
Ooo, baby I missed you before we ever met
Ooo, baby I missed you before, before we ever met
