Thinking Out Loud

Ron Sexsmith

Thinking out loud is all I'm doing Trying to raise my love above these ruins With each song, I kick it around Thinking, my love I can tell

There's a load on your mind If we poured ourselves Like this bottle of wine and let it flow We'll figure it out, thinking out loud

But it's hard to think with all the racket Going on inside our heads All this worrying is getting us nowhere Let's go somewhere instead

Just thinking out loud Is it all we're good for? Trying to raise our love But always falling short

Heaven knows what it's all about Thinking out loud With each song, I kick it around Thinking out loud
