

WAVE

Ron Suno

I get the money I run it up

I just be stuck in my ways
They say I be living the money I gain
I had a hell of a day
Cannot talk about bitches got money to make
I gotta go make a way and make sure that my brothers and family is safe
Gettin my head in the game
They watching my guap and I'm getting it in
I just be stuck in my ways
They say I be living the money I gain
I had a hell of a day
Cannot talk about bitches got money to make
I gotta go make a way and make sure that my brothers and family is safe
Gettin my head in the game
They watching my guap and I'm getting it in

I put the bitch in a raf
I remember those nights had to live with no change
Now I'm makin plays everyday and I cannot be stopped makin bands everyday
I had to stay with the riches to realize I'm winning I'm playing it safe
Why they gon say that they proud if me
When they was the first ones who doubted me
Can't be trusting I know they gon lie to me
But my broski's I know they gon slide for me
Making money like I hit the lottery
I refuse to go back to the poverty
Can't be holdin if you put in a lot for me
I'm the first one nobody been stoppin me
I made a living I do what I want
I was just movin I came from the starts
Wavin my tool now this money gon come
They used to laugh now they lookin like bums
I told my bitch I don't care what it costs
Come out with woo I came from the floss
Already did what I said I was taught
It took a lot but I turned to a boss

I just be stuck in my ways
They say I be living the money I gain
I had a hell of a day
Cannot talk about bitches got money to make
I gotta go make a way and make sure that my brothers and family is safe
Gettin my head in the game
They watching my guap and I'm getting it in
I just be stuck in my ways
They say I be living the money I gain
I had a hell of a day
Cannot talk about bitches got money to make
I gotta go make a way and make sure that my brothers and family is safe
Gettin my head in the game
They watching my guap and I'm getting it in
