

# Easy Now My Dear

Ronan Keating

It always hurts to say  
It never goes away  
I'm in a mess for weeks  
I cannot eat or speak  
But you never see me cry  
Cos you're upon the other side  
It no need to know how bad  
It's better off like that

But now that your here  
And there's noone but us  
Take the air and breath that in  
Don't say a word just pretend that the world  
Is Easy now my dear

Wish I had a ... car  
I throw at down so hard  
I wouldn't let you go  
But I've looked every way I done  
I hear you on the line  
Telling me all is fine  
That's all I have those words  
Everyone I have heard

But now that your here  
And there's noone but us  
Take the air and breath that in  
Don't say a word just pretend that the world  
Is Easy now

How many times ...  
Moment in circles up then we're down  
My heart doesn't know why it hurts when you leave  
But perfectly beats when you're here

Easy now

It always hurts to say  
It never goes away  
I'm in a mess for weeks  
I cannot eat or speak

But now that your here  
And there's noone but us  
Take the air and breath that in  
Don't say a word just pretend that the world  
Is Easy now easy now easy now  
My dear
