

# Forever Aint Enough

Ronan Keating

I still remember  
Locking our fingers  
First cold December with you  
Our hearts were on fire  
Young love desire  
Don't ask me why but I knew

And after all these years  
I still catch the old butterflies

Tonight, holdin' you close under moonlight  
Don't want this moment to pass by  
There's nothing that I wouldn't do  
One life ain't long enough here by your side  
I see a future in your eyes  
The second I saw it I knew  
Forever ain't enough with you

Head on my pillow  
Tracing your dimples  
Life feels so simple with you  
Don't need to rewind  
Press pause or stop time  
'Cause it feels like the first time  
That you said that you're mine  
It feels like the first time

And tonight, holdin' you close under moonlight  
Don't want this moment to pass by  
There's nothing that I wouldn't do  
One life ain't long enough here by your side  
I see a future in your eyes  
The second I saw it I knew  
Forever ain't enough with you  
Forever ain't enough with you  
Forever ain't enough with you  
Forever ain't enough, forever ain't enough

Even through times of tears  
You'll never hear a goodbye  
'Cause after all these years  
I still catch the old butterflies

Tonight, holdin' you close under moonlight  
Don't want this moment to pass by  
There's nothing that I wouldn't do  
One life ain't long enough here by your side  
I see a future in your eyes  
The second I saw it I knew  
Forever ain't enough with you  
Forever ain't enough with you  
Forever ain't enough with you  
Forever ain't enough, forever ain't enough
