

It's Only Christmas

Ronan Keating

Do you remember what you wished for every Christmas
Do you say a prayer and send it on our star
Or maybe I'm just being over sentimental
But now it's Christmas and I miss us most of all.

You know I never really took the time to thank you
I was always thinking you were here to stay.
Is it something in the air that gets me crazy
'Cause now it's Christmas but I miss us just the same.

When it's cold, I get lonely
I can't talk, I can't walk, I can't breath
Then I dream and you hold me
And the angels are singing with me
I guess it's Christmas when I miss us most of all.

So let the snow come down and drown out all my sorrows
And maybe I can dance again with you
And as the children sing I swear I heard you whisper
That now it's Christmas but I miss us just the same

When it's cold, I get lonely
I can't talk, I can't walk, I can't breathe
Then I dream and you hold me
And the angels are singing with me
I guess it's Christmas when I miss us most of all
I guess it's Christmas when I miss us most of all
'Cause now it's Christmas and I miss us most of all
