

# Something Wonderful

Ronan Keating

Don't want this story to end, we're only at the start  
I can see where this is goin'  
Through I'm islands apart from where you are  
I can feel my spirit driftin', it gets lost along the way  
Graced by your existence  
Now I just wanna stay with you, right here where I belong

We can make something wonderful  
This could be something beautiful  
Why would you wanna give up  
When we can make something wonderful?

Even when your faith is shaken, still, you stand your ground  
Isn't this a world worth savin'?  
Together, we are stronger now, we've found

We can make something wonderful  
This could be something beautiful  
Why would you wanna give up  
When we can make something wonderful?  
We can make something wonderful  
This could be something beautiful  
Why would you wanna give up  
When we can make something wonderful?

Be the rain in a drought  
The whole world's cryin' out, will it always be there?  
When we're lost in the flood, will you be there, be there, be t  
here?

We can make something wonderful  
This could be something beautiful  
Why would you wanna give up  
When we can make something wonderful?  
We can make something wonderful  
This could be something beautiful, oh, yeah  
Why would you wanna give up  
When we can make something wonderful?  
We can make something wonderful  
This could be something beautiful  
Why would you wanna give up  
When we can make something wonderful?
