

We Just Need Time

Ronan Keating

We just need time, we just need time

I beg to kiss your heart your hand to kiss your mouth
I pray you'll look me in your eye and share your doubts
I broke your heart a thousand times, let's work it out please

I let you down but now I see without you there's no me

We just need time babe our love is getting back on track
We just need time babe I promise I'm gonna get you back
Give me a sign girl I'm having a double heart attack

I've hit the town with all my friends but they're no help
I need to find a way to prove there's no one else
If you don't take me back I'll spend my life by myself

I believe in you, believe in me there's nothing we can't be

We just need time babe our love is getting back on track
We just need time babe I promise I'm gonna get you back
Give me a sign girl I'm staying and baby that's a fact

'Cos I know we improve but I need you to see that baby you're coming with me

We just need time babe our love is getting back on track
We just need time babe I promise I'm gonna win you back
Give me a sign girl I'm having a triple heart attack
We just need time babe our love is getting back on track
We just need time babe I promise I'm gonna get you back
Give me a sign girl I'm staying and baby that's a fact

We just need time
