

Somethin' I Can't Have

Ronnie Dunn

Well, forgive me bartender for givin' in to my crazy
But that's just how her leavin' makes me
The whiskey helps the hurt, oh, but it don't heal
The way her stone-cold gone is makin' me feel

Oh, she's just somethin' I can't have
An old flame burnin' in my past
A way-long gone that won't come back
She's just somethin' I can't have

These empty arms used to hold her almost every night
Learnin' the hard way's tellin' me I shoulda held on tight
That jukebox keeps playin', oh, some sad ol' song
About some fool who can't let go and can't move on

She's just somethin' I can't have
An old flame burnin' in my past
A way-long gone that ain't comin' back
Oh, she's just somethin' I can't have

She's just somethin' I can't have
An old flame burnin' in my past
Oh, a way-long gone, it ain't comin' back
She's just somethin' I can't have
She's just somethin'
She's just somethin' I can't have
