

My Love Is Deep, My Love Is Wide

Ronnie Milsap

My love is deep my love is wide
And you can't see across to the other side
My love is deep my love is wide
I got too much love for you for me to try to hide

People say I'm not the man not they used to know
Something made a change come over me
And when I feel such happiness I guess it's gotta show
'Cause I'm a happy man it's plain to see

Cause baby my love is deep my love is wide...

When I'm gone the only thing I think about is you
And all your sweet love that you give to me
You're a part of every single thing I ever do
And that's the way it's always gonna be

Cause baby my love is deep my love is wide...
I got too much love for you for me to try to hide
