

She's Always In Love

Ronnie Milsap

She keeps regular hours with a different man
She's got an attitude for any mood she's in
She changes her mind the way she changes her clothes
She wears her heart on her sleeve
She doesn't care who knows

She's always in love
Whoa, she's always in love
It ain't no big deal, she just knows how it feels
That's why she's always in love

She keeps her eye on all the current trends
The latest styles from Paris and the prettiest men
You can steal her heart away if you catch her by herself
But, just when you give her your love
She's givin' her's to somebody else

Because she's always in love
Whoa, she's always in love
It ain't no big deal, she just knows how it feels
That's why she's always in love

She can take you to places
You've always wanted to be
But if she takes you to heart
Don't take her seriously

She's always in love
Whoa, she's always in love
It ain't no big deal, she just knows how it feels
That's why she's always in love

She's always in love
Ooh, she's always in love
It ain't no big deal, she just loves how it feels
That's why she's always in love

She's always in love
She's always in love
Loves how it feels
She's always in love
She's always in love...
