Late night, drawing numbers game on my own  
Windows turning, can't nobody see what's going on  
I can't lose, they know right from wrong  
Unpredictable, never know what I'm on  
Pushers start to whip out, got no roof though  
Life been getting crazy, I been ruthless  
Why these niggas talking but don't do shit?  
You ain't seen my bitch 'cause she exclusive

Really getting money for my family  
Can't believe they seen me like a fantasy  
I don't want you girlfriend, she a friend to me  
If they ain't show me love I got no sympathy  
When I drive they show me love, they get excited  
Really with my brother gon' try it  
Only I understand it, then we vibe yeah  
Only I understand it, then we vibe yeah
