

Doesn't Matter

Ronny J

Model chick on Vogue magazine
All she let me strip her to the knee
I guess it didn't matter
I guess it didn't matter (Oh my God, Ronny)
Seem real proud, we rolled in limousine
Went and got king, I knew you was a queen
Got so close, we made it into a thing
Got a check, and put you in some bling
Used to walk you home just for the lean
Put new VVSs in my link
I guess it doesn't matter
I guess it doesn't matter, oh

Cheese from Elliante
Girl, come quick like ¡Ándale!
Free up, I got time today
Richard Mille the time today
I just want some signs, okay?
Got no sleep, I grind all day
I guess it wasn't all the way
I put the stars in the Wraith in a day
Nothing seems too promising
I'm so over, drama queen
I got way too much in currency
Pretty girl don't lie to me
I done gave you all the best of me, I don't got no left in me
From the heart, you're nothing less
Won't let Hollywood get the best of me-e-e
