

Lights Out

Ronny J

Oh my God, Ronny

I remember what you told me
I want you to show me
Seen you looking at my Rollie, ice watch
And I'm still blowin', lights out
Walk it, shut it down, lights out
Well, she let me knock it down, lights out
Pass out, one hit of the gas, lights out
Kick her out, now she big mad, lights out

Red red red rum, I'ma bleed her
She got that bidi bidi bum bum like Selena
Butt like Anita, she a diva
She so damn fine, I'm like "Lord, Jesus"
Fly you overseas, you don't need a visa
Just to paint her face, that's a Mona Lisa
Let you bring your friend along, that's a threesome
Leave your panties back at home, I'm tryna see some
Living like a rockstar, don't know how to act
Woke up, blew a check, 'cause I already got it back
Never been normal, everything enormous
Counted half a million when I woke up this morning

I remember what you told me
I want you to show me
Seen you looking at my Rollie, ice watch
And I'm still blowin', lights out
Walk it, shut it down, lights out
Well, she let me knock it down, lights out
Pass out, one hit of the gas, lights out
Kick her out, now she big mad, lights out

Oh, I fucked the bitch, then it was lights out
I bought a pinky ring, that's a lighthouse
Are you mad huh?
Bitch wanted to fuck so bad she rode a cab here
Couldn't even rap, my money older than my grandma
That's a nice watch, Plain Jane, might ice it out
The Lamb truck, might pull it out
Pussy too good, I can't pull it out
See you looking at my bitch
All these hoes, they say I'm handsome 'cause I'm rich
Mama mad I got the Lamb, I need a tint
Gotta chase after these hundreds, I can't sprint
2.5 just on cars, I don't speed
Think I'm ever going broke, you've got me beat

I remember what you told me
I want you to show me
Seen you looking at my Rollie, ice watch
And I'm still blowin', lights out
Walk it, shut it down, lights out
Well, she let me knock it down, lights out
Pass out, one hit of the gas, lights out
Kick her out, now she big mad, lights out
