

## Our Time

Roo Panes

Woke up this morning so excited  
Laughed into my coffee couldn't hide it  
Cause all of these years that I've lived alone  
Finally you and I will build a home

33 years on this planet  
Don't think I'll ever understand it  
If it's working out better than I planned it  
Or maybe I'm coming in for landing

What shall we do with our time?  
Cause we'll do the rest together  
Oh what shall we do with our lifetime?  
Something we can do forever

Dust in the air from making changes  
Let every clear morning turn the pages  
When I open my eyes and you're the one I find  
I will be yours and you'll be mine

Cause it's our time, our time  
Oh it's our time, our time now  
Cause it's our time, our time  
Oh it's our time, our time now

What shall we do with our time?  
Cause we'll do the rest together  
Oh what shall we do with our lifetime?  
Something we can do forever

What shall we do with our time?  
Cause we'll do the rest together  
Oh what shall we do with our lifetime?  
Something we can do forever
