

# Don't Tear Me Apart

Rookie of the Year

Will you roll with me tonight?  
See the city lights  
Talk about angels  
Talk about you and me

So this is what I know  
And it's San Fransisco gold  
And all this shows  
As we watch the street lights glow

And we wait around for love  
And we wait till we can't wait no more  
Don't tear me apart

You pressure me to speak  
As we walk on down these vacant streets  
Are you feeling alright?  
Are you feeling alright?  
Yeah, I'm feeling alright

And this is where we go (What's this you're planning?)  
Is there something I should know (I hope you're understanding me)  
If I had more time (had more time)  
For you to decide (for you to decide)  
I'd probably be more in your life  
Hands by your side

We wait around for love  
And we wait till can't wait no more  
Not gonna fight it, believe it  
Have to find it and receive it  
Don't tear me apart  
Don't tear me apart

Ahhhhhhhhhhhhhhh  
Ahhhhhhhhhhhhhhh (don't tear me apart)  
Ahhhhhhhhhhhhhhh  
Ahhhhhhhhhhhhhhh

And you wait around for love  
And we wait till we can't wait no more  
Not gonna fight it, believe it  
Have to find it and receive it  
Please, just don't tear me apart.
