

## Turn The Page

Rookie of the Year

You walked away I was on the run. 4 months 6 days and I'm fine.

I was wrong we were gone and the radio waved. Got no faith to feel you.

I knew you wouldn't be what I needed. I had to let you go.  
I couldn't even see the brake lights, 100 miles down the road.  
I was lost along the way. Turn the page. Turn the page.  
How long can I wait. Turn the page. Turn the page. I'm looking away.

You lost control when you lost the time. It's all been done and I'm fine.

Hear the songs sing a long cause it's all that we got, God knows it can't save us.

I knew you wouldn't be what I needed. I had to let you go.  
I couldn't even see the brake lights, 100 miles down the road.  
I was lost along the way. Turn the page. Turn the page.  
How long can I wait. Turn the page. Turn the page. I'm looking away.

I led you faster than you know,  
Goes down this empty picture show,  
these sparks can stop to make us grow.  
I know it's time to let you go.  
I was wrong you were gone and the radio waved.

I knew you wouldn't be what I needed. I had to let you go.  
I couldn't even see the brake lights, 100 miles down the road.  
I was lost along the way. Turn the page. Turn the page.  
How long can I wait. Turn the page. Turn the page.

I knew you wouldn't be what I needed. I had to let you go.  
I couldn't even see the brake lights, 100 miles down the road.  
I was lost along the way. Turn the page. Turn the page.  
How long can I wait. Turn the page. Turn the page. I'm looking away.
