

# Simple Things

Room 2012

You know you gotta love, gotta love this  
You know you gotta, gotta, gotta love this

I got so much on my mind  
I guess you know just how it feels, yeah, yeah  
Letting life just pass me by  
Missing out on the things that make it real, like

A place where I can sleep  
Isley Brothers on MTV  
Late night talking with my girl that  
Is all good up in my world  
VHS no DVD, but I could buy one get one free (get on free)  
I got everything I need if I just count the simple things, yeah

Chorus:  
Just see how good life can be  
I got you and you got me  
Imagine how it all could be  
If you just count the simple things, yeah

I've been around the world through the hustle and the bustle  
Seen people every day stressing out on a double man  
I think back how I used to be  
When I was all about the money, yeah  
Trying to get paid  
Like humpty dumpty I had a great fall  
Bumped my head, got a wake up call  
My whole world made a crash landing  
But still the simple things were left standing

I'm so glad to be alive  
Ever since I opened up my eyes  
Feels so good to see the sun shining  
Ever day is getting brighter

Chorus...

Just think about it  
Just see how good life can be  
Just think about it  
I got you and you got me  
Just think about it  
Imagine how it all could be  
Just think about it  
If you just count the simple things, yeah

I'm like hold up, wait a minute  
Press rewind and think about it  
Whoa whoa again whoa whoa

I'm like hold up, wait a minute  
Press rewind and think about it  
Whoa whoa again whoa whoa

Chorus...
