

# Strong Out

Room 2012

When we started out it was fun, so cool  
nothing really heavy just a little after school  
we were chasing dreams and living for the day  
life was for the taking it was such a simple game

i don't know when and i don't know why  
suddenly i'd lost you and a part of you had died  
you'd gone and taken it too far  
i don't recognize who you are you're

Chorus:

Strung out  
you're wasting all your love away  
i'm running out of words to say  
is there nothing getting through  
cause i can't bear to see you  
Strung out  
believing that there's nothing wrong  
when every day the pain goes on  
tell me what they gonna say  
when you've shot yourself away

It's a long way down when you're flying high  
no ones gonna catch you when you've told too many lies  
it's hard for me i'm not that brave  
Please god help me know while there's something left to save

My premonitions are coming true  
just tell me baby what are you trying to prove  
You're hurting me, breaking me, you're still for saking me  
why can't you see you're

Chorus:

Strung out, Flowers on the grave  
The angels are calling out your name  
It's all gone, ashes in the rain  
the moral of the story is don't live your life in vein

Strung out, Flowers on the grave  
The angels are calling out your name  
It's all gone, ashes in the rain  
the moral of the story is don't live your life in vein

Chorus:
